

CORYDALIS PORCELAIN BLUE

KEY FEATURES

- One of the best Corydalis to be released to date
- Masses of electric blue flowers smother the plant not once, but twice a year in spring to early summer *and* again in autumn
- Get up close and enjoy the delicious, sweet fragrance
- Delicate blue-green, slightly bronzed foliage forms a tidy clump with a stiff upright habit
- Most Corydalis are summer dormant, but not Porcelain Blue. This one is evergreen!
- Perfect for container planting or group planting in a garden border in well-drained, moisture retentive soil, in sun to part shade
- Frost hardy
- 0.25m x 0.35m
