

PHYSOCARPUS SHADY LADY^{PVR2926}

KEY FEATURES

- A New Zealand selection of the popular North America 'Purple Ninebark'
- So-called for its bark, which peels off in thin papery strips, resembling the number '9'
- New spring foliage emerges as deep burgundy to mahogany, on dark red stems
- Umbels of tiny cream flowers appear in late spring to early summer
- Foliage colour intensifies to rich red in autumn before leaves fall
- Plant as colour accents or fillers in shaded areas
- Extremely cold hardy
- Deciduous
- 3m x 1.5m
