

# PITTOSPORUM IRISH LUCK<sup>PVR32563</sup>

## KEY FEATURES

- Bred by Jack and Kathy Ritchie, Tree Guys Nursery, Central Hawkes Bay, New Zealand
- A Stephen's Island x *Pittosporum tenuifolium* hybrid resulting in a tough, attractive small tree
- Shorter internodes make 'Irish Luck' more compact than its parents
- Foliage has retained the attractive fine silver edge of Stephen's Island species
- Leave to grow into a well-shaped small tree or clip into a dense hedge
- Low water tolerance, once established
- Wind and coastal tolerant
- 3m x 2m
