

PITTOSPORUM POT BELLY

KEY FEATURES

- Beautifully rounded, compact form of New Zealand native *Pittosporum crassifolium*
- Low maintenance, requires minimal trimming to maintain shape
- Perfect pot specimen, natural ball-shaped topiary or contrasting shape in garden borders
- Also excellent as a low hedge or garden divider
- Especially good in coastal environments for its extreme wind hardiness and salt air tolerance
- Low water requirements
- Approx 1.2m x 1.2m
