

VIBURNUM COPPERTOP

KEY FEATURES

- Excellent new, heat and drought resistant hedging plant
- Produces a mass of brightly coloured, maroon-red, shoots in the spring flush of new growth and after every trim
- Glossy foliage and a well branched, bushy habit
- Also known as 'Sweet Viburnum', it produces fragrant creamy-white flowers
- Quick growing, perfect for filling gaps in a garden border, creating a privacy screen or medium height hedge
- Tolerant of full sun to part shade
- 2.5m x 2m
